EDUCATION

University of Colorado at Boulder – College of Engineering and Applied Science

August 2021 – May 2024

Bachelor of Science in Computer Science

GPA: 3.893/4.0

Major GPA: 3.97/4.0

- **Relevant Projects:**

- OOAD Final Project: Developed a Fantasy NBA application utilizing Java based on an object-oriented design methodology and design patterns.
- Software Development Final Project: Worked with a project team using an AGILE model to develop a working website and database. Scope of work was full stack development including front-end user interface, back-end database, front-end-to-back-end integration, application security, Microsoft Azure, etc., with a focus on test-driven design.
- Object Oriented Final Project in C++ (Intro to Programming): Coded a turn-based video game with an interactive map, menus, NPCs, and inventory system.
- Used Pandas Library to analyze solar flare data for NASA to create a model to accurately predict solar flares' frequency and magnitude, which resulted in a published paper.

- **Relevant Courses:** Software Development Methods and Tools, Principles of Programming Languages, Object Oriented Analysis and Design, Algorithms, Data Structures, Discrete Structures, Intro to Programming

Community College of Aurora

August 2020 – May 2021
